IMPORTANT: Turn off the power at the main fuse or circuit breaker box before starting installation

(A) Top cover & Finial

(B) Fram & Glass shade

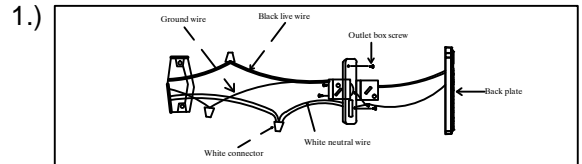

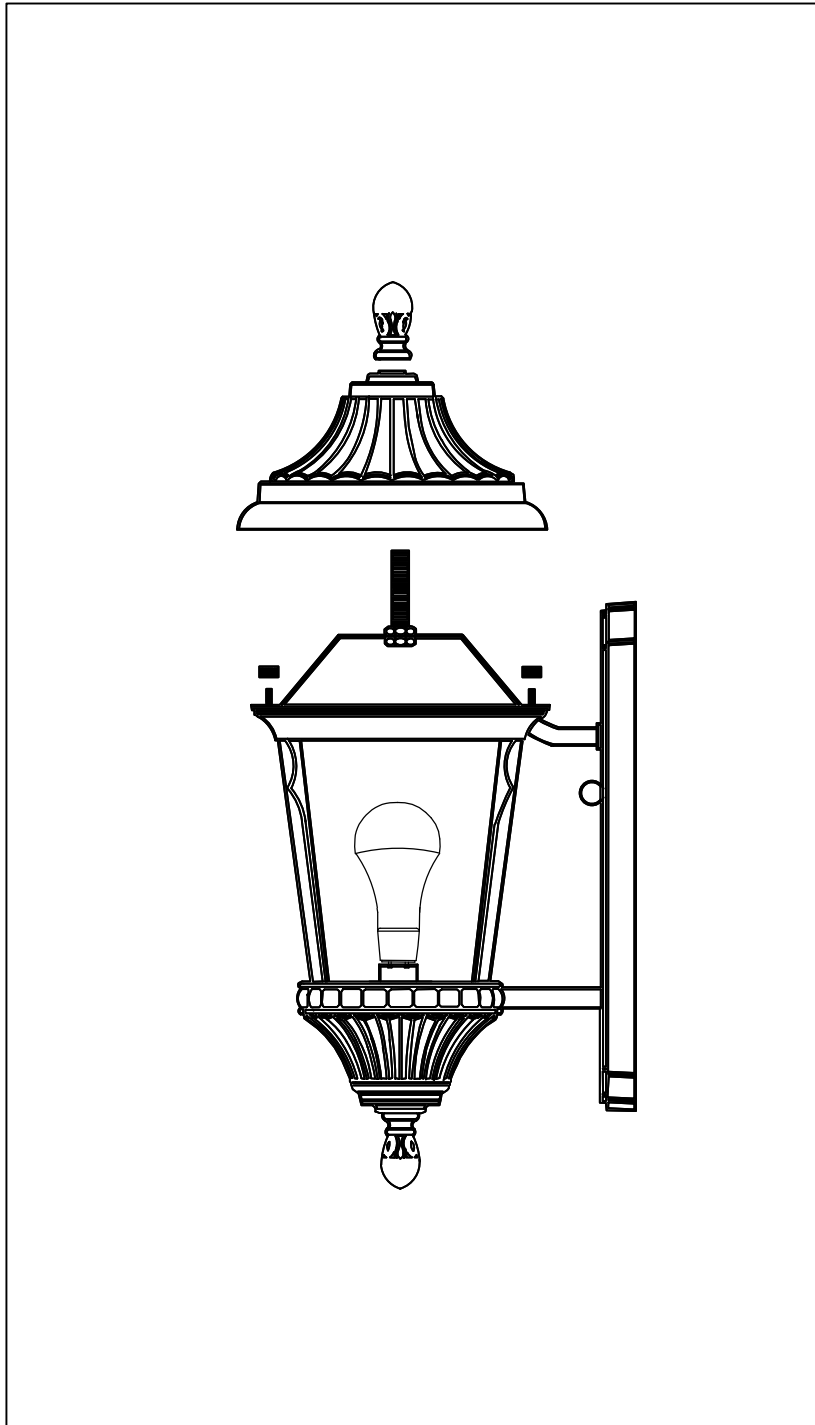

(C) Bottom cover

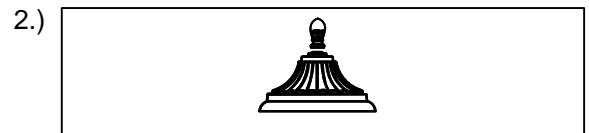

(D) Black plat

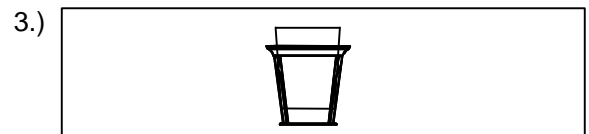

Locate all hardware & components before discarding packing

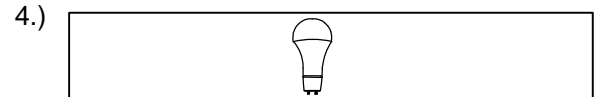

Step.1: Wire fixture to wires in outlet box. Black wire is positive, white is neutral, bare wire is ground (Caution: Disconnect all power before servicing).

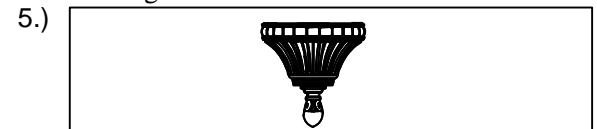

Step.2: Attach (A) top cover and secure by screwing decorative cover and finial to top cover.

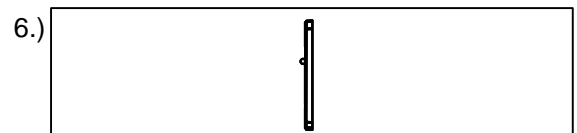

Step.3: Place (B) Glass shade carefully inside of frame. Then grabbing firmly onto the frame, install onto crown by fastening with lock nuts.

Step.4: Install bulb. See relamping label located at socket area for type and maximum allowed wattage.

Step.5: Place (C) Bottom cover to fixture .

Step.6: Carefully tuck the wires into the outlet box as you place the (D) back plate onto the wall. Secure fixture using finial on the protruding screws.

Cleaning & Care:

Clean with soft cloth and a mild detergent.
Do not use abrasive cleaner.
